I studied the Diploma of Business at Shafston, a very popular international college in Australia because the campus is situated by the river. The classes are enjoyable and attending my classes has also helped me improve my English.

FeiQuo (China)

I have just graduated from my Certificate III in Early Childhood Education and Care, and I am currently studying the Diploma. Shafston is helping me to develop my knowledge and skills in the childcare sector through teachers and staff who are professional, friendly, and helpful. The classes are challenging and the campus is beautiful with a great green area and awesome view to the river. The staff assisted me with finding vocational placement in a childcare centre and helped me with all the arrangements. Thanks to my vocational placement I have already started to work in the childcare industry.

Ana Maria (Spain)

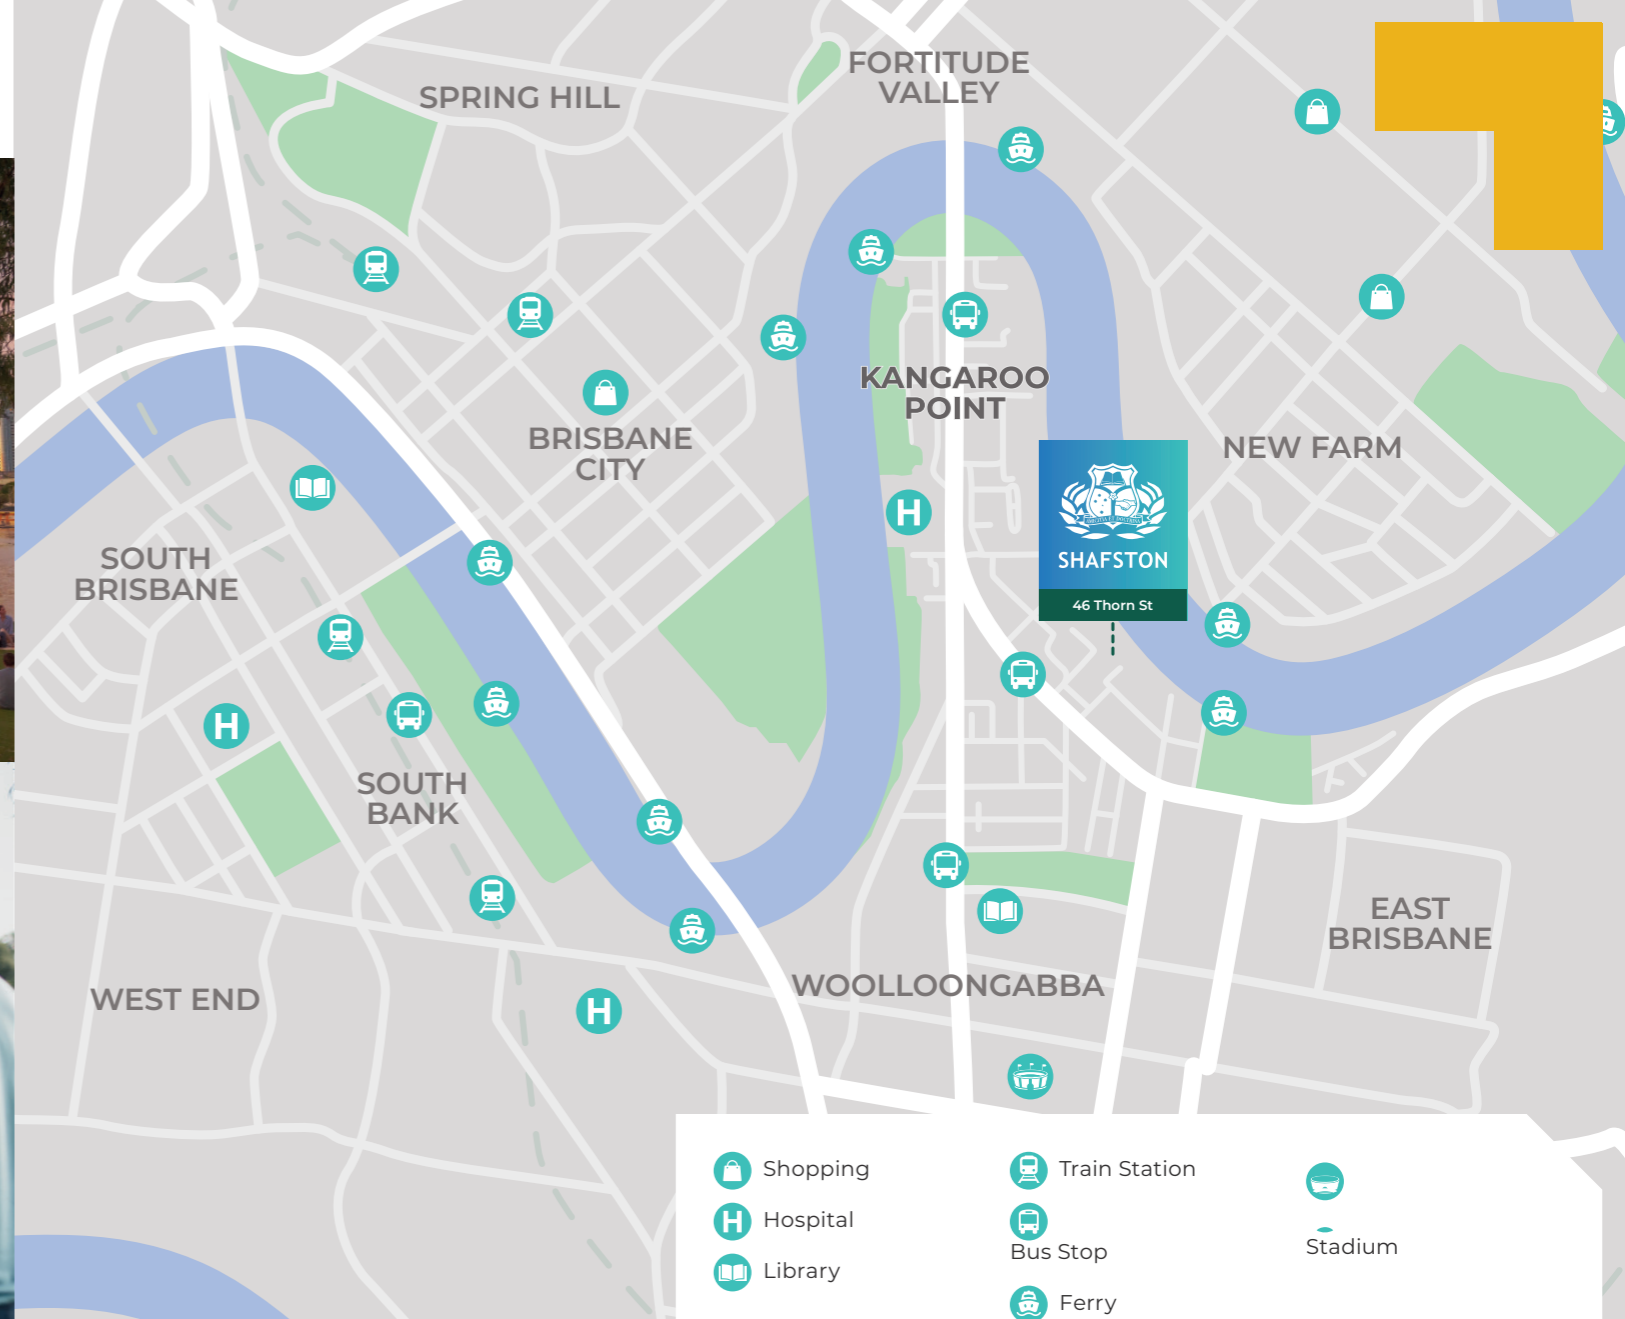

What I liked about Shafston was the small class size. This allowed the teachers to help each student and it made it easier to ask questions. The teachers would often give me advice on how to improve my English which helped me gain more confidence. Although I had a lot of difficulties with my English, I was able to improve my understanding from the supplementary classes where I received one-on-one lessons from my teacher.

Misa (Japan)
